## How to use

This file is designed so you can create a poster size center chart for your own classroom needs. I included two types of files. The first is a printer size file to print in color on standard size paper and poster size file to print out via a poster maker, if your school is lucky enough to have one. I made a horizontal and vertical “center time” sign so you can choose which way you want to hang your board.

Print out your desired files. Cut out center choices around their individual black line and laminate.

For Standard Size Paper Prep– your file is the exact same, except the words “Center Time” is slightly smaller to fit onto a paper.

For Poster Size Paper Prep– print out the “Center Time” paper. Attach it to the exact middle of the poster and laminate it.

Using Velcro strips or circles, I use the circles, attach your center choices to the board. (This is optional to allow you to change out centers as needed. If you don’t want to do this, attach your center choices to your board before you laminate them.) I like to add centers as I instruct students to use it. I also take away if they don’t keep it clean or play correctly.

The poster can hold 14 center options. 5 fit across the top and bottom. 2 additional ones fit on the sides. I also put the circles in the exact same spot on each square so I can mix and match pieces.

Some teachers add circles to indicate how many students can go to that center. I didn’t add these for you because the location on the chart dictates where the circles would go. See my example on the left. The color circles should match that color clothes pin.

This chart piece could go on the left side of the board with 2 people playing there, and red clothes pins to match circle.

The home living piece should go on the top with 3 people playing there, and blue clothes pins to match the circles.

For those pieces on the bottom, place the circles to the side of the writing. Chose these carefully (the centers with only 2 people each) so the students can read the writing.

I also created blank squares for you to make your own center choices if you desire..

# CENTER TIME

# CENTER TIME

 blocks	 drama	 studies
 pocket chart	 kitchen	 puzzles
 poetry	 computer	 big books
 reading	 partner reading	 listening
 table work	 writing	 chalk

 big chart	 dress up	 water table	 dinosaurs
 chart	 home living	 trains	 creating
 red table	 purple table	 Table 1	 Table 2
 yellow table	 orange table	 Table 3	 Table 4
 blue table	 green table	 Table 5	 Table 6

I hope you enjoy center pack!  
I hope this saves you a ton of preparation  
time implementing fun in your classroom.  
If you love this, please take a moment to rate  
it.
