 - I am very smart with verbs.
- I can write my first name, I can write my whole name.

How you can use

My school uses student agendas. I use these labels to place in each student’s agenda to inform parents of great student accomplishments. You can also add them to behavior charts, newsletters, or any other form of parent/school communication so you don’t have to write it yourself 20+ times. Additionally, you can attach these to a child’s shirt to send a great educational message home or use it in scrapbooks.

I print them all at one time, and store them close to my agenda so I can pull and stick them easily.

How to print

I always use Avery labels. These labels were designed to print 30 labels per page. They are typically state “Address Labels” on the front. (And say you can print 30 labels per page, 3 columns with 10 in each column.) Here is an example of what to look for.

Each printer is different, so I can not help you print them at home. I follow the directions on my color printer to do mine.

* I always run ONE test page through FIRST my printer so I don’t waste label pages. Please do this as well.

I hope you enjoy these labels as a fun,
simple way to communicate to your
students and/or parents.

If you love this, please take a moment
