Valentine Math Centers

1. Candy Hearts- sorting coins and amounts
2. Time for Love- sorting time to the hour and half hour
3. Fill The Frame- 40 Addition Cards provided for sums up to 10 for 4 players.
4. Chocolate Covered Shapes- sorting solid and flat shapes
5. More or Less Cookies- sorting numbers more or less than 50
6. Tommy Says Teens- matching game for tens and ones using teen numbers and their tricky partner- ie 18 and 81.
7. You've Got Mail- subtraction from 10.
8. Blank sorting mat and chocolate pieces for your own game needs!

Candy Hearts

This activity is designed to allow students to sort coins and amounts into the correct jars.

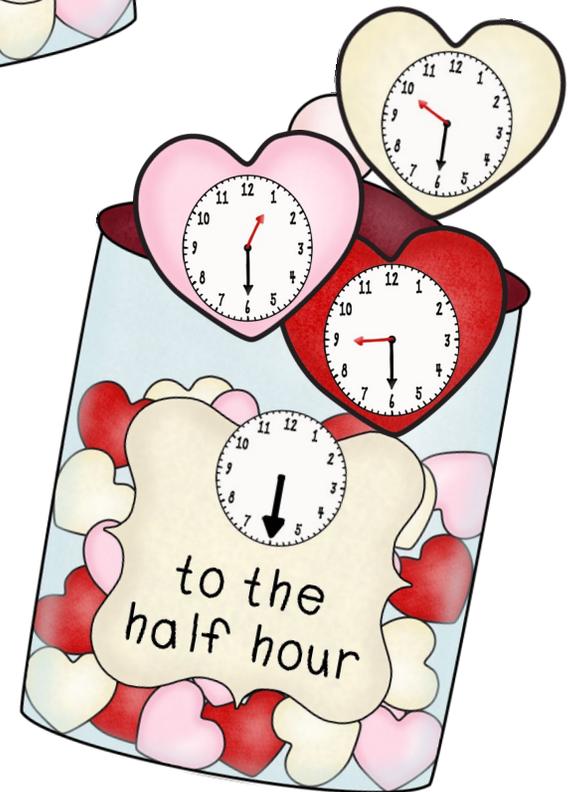

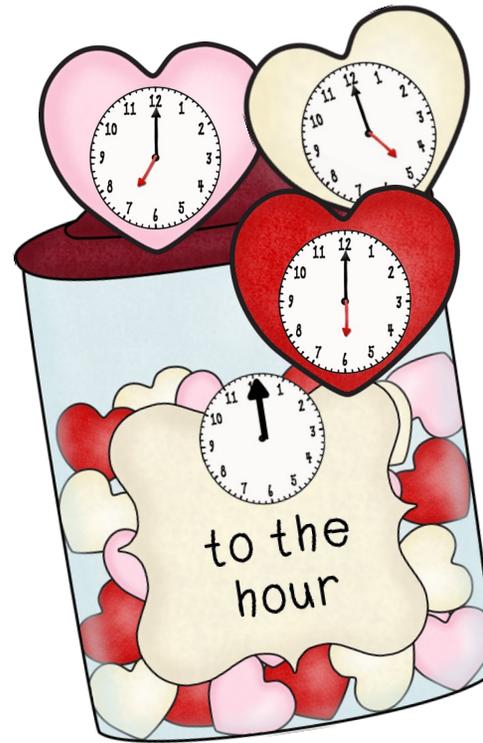

To prep— print out jar and coin heart onto cardstock. You can leave jars together as a mat or cut apart. Cut apart the page of coin hearts. Laminate all pieces and cut apart. Place at a center or station for student use.

Time for Love

This activity is designed to allow students to sort the clocks by time to the hour and half hour into the correct jars.

To prep— print out jar and clock heart onto cardstock. You can leave jars together as a mat or cut apart. Cut apart page of clock hearts. Laminate all pieces and cut apart. Place at a center or station for student use.

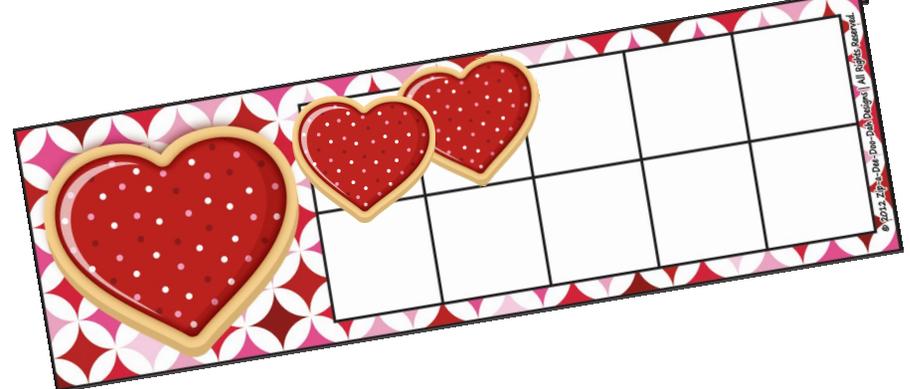

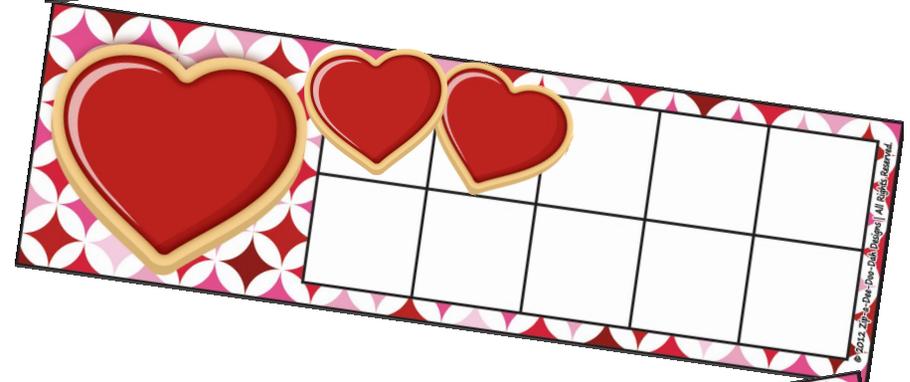

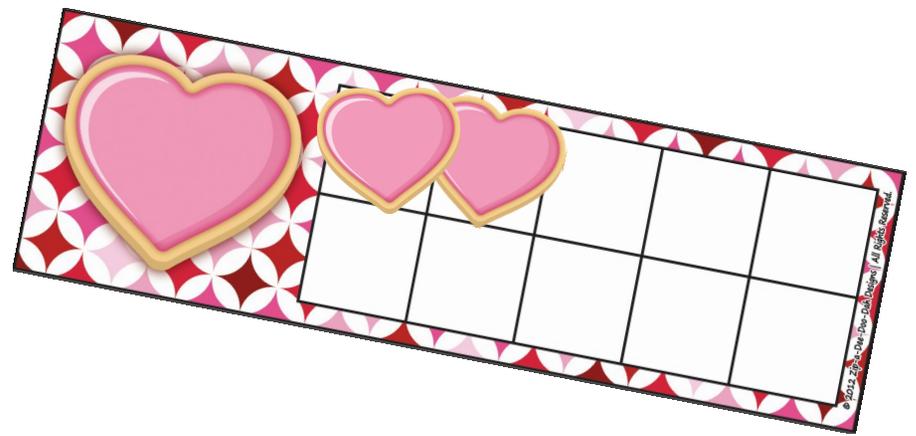

Fill The Frame

This activity is designed to have students answer questions to earn a heart. The first one to fill their ten frame wins! This is made for 4 players.

To prep— print out ten frames and hearts onto cardstock. Cut apart ten frames on the dotted line. Also cut apart hearts and laminate all pieces. Cut all parts out of lamination and place the like hearts in a bag.

Have students read sight word, addition problem, reading comprehension question, or any other skill to earn a matching heart.

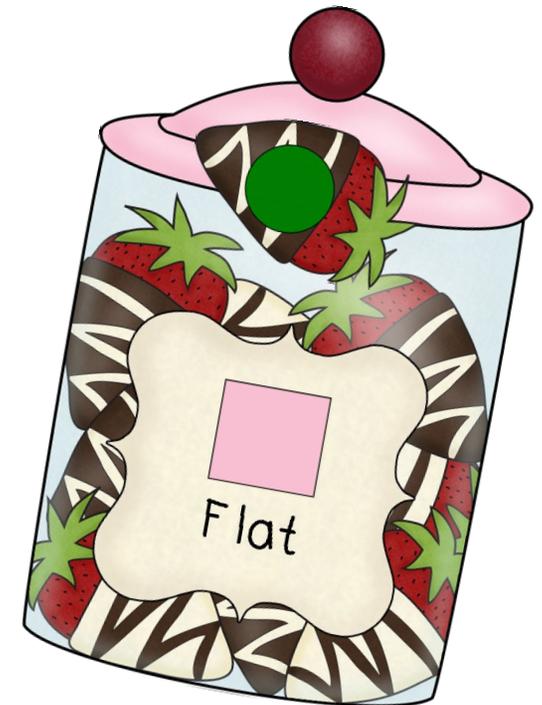

* I provided Owl Addition cards with sums up to 10 to play here as an option if you want to use them.

Chocolate Covered Shapes

This activity is designed to allow students to sort flat and solid shapes.

To prep— print out jars and shape strawberries onto cardstock. You can leave jars together as a mat or cut apart. Cut apart shape strawberries. Laminate all pieces and cut apart. Place at a center or station for student use.

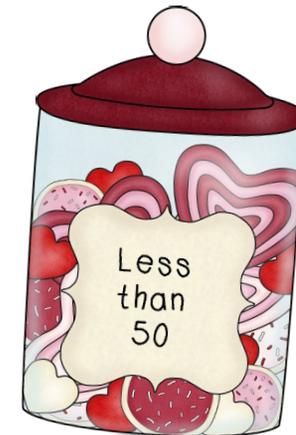

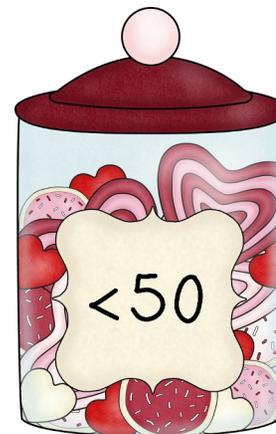

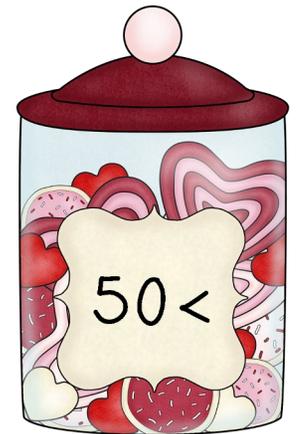

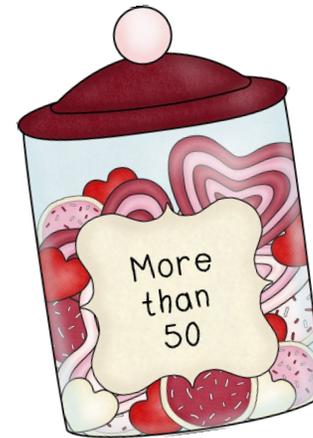

More or Less Cookies

This activity is to practice number sense. Students should sort the cookies into the jars for more than or less than 50.

To prep— print out the jars onto cardstock. Also print cookie cards onto cardstock. Cut apart cards, but not the jars. Laminate all pieces and cut apart. Place at a center or station for student use.

*I included two types of jar options for those who know the symbols and those that do not. You do not need both.

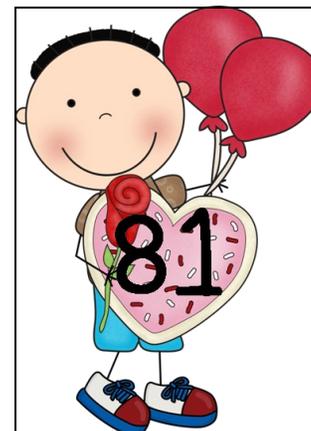

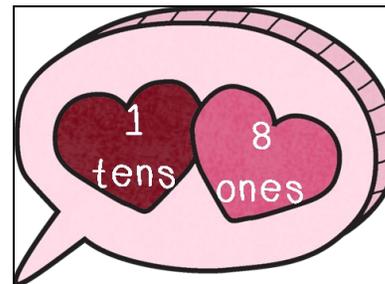

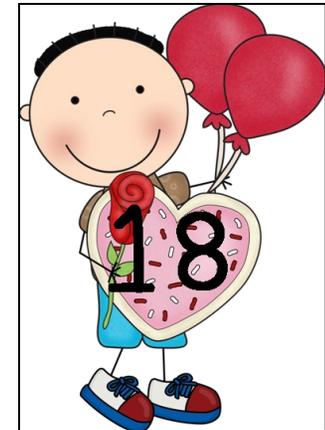

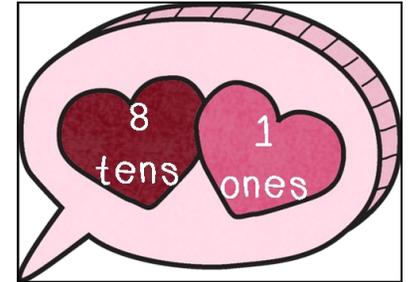

Tommy Says Teens

This activity is designed to provide students with extra practice identifying teen numbers by matching the Tommy card to the thought bubble. I added the challenge number cards like 18 and 81.

To prep— print out the cards onto cardstock. Cut apart cards. Laminate all pieces and cut apart. Place at a center or station for student use.

This can be a matching game or a pocket chart practice

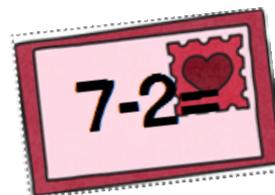

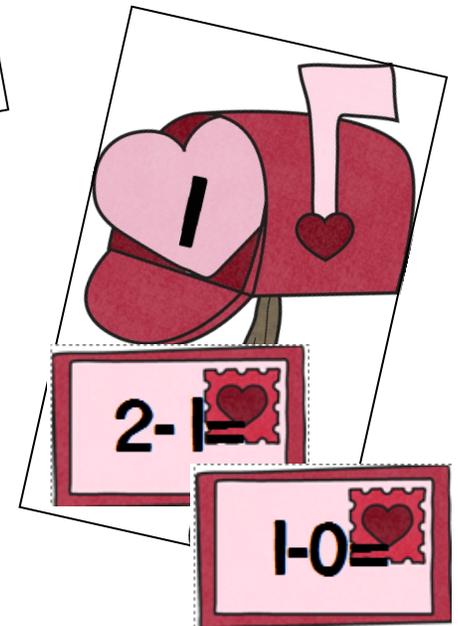

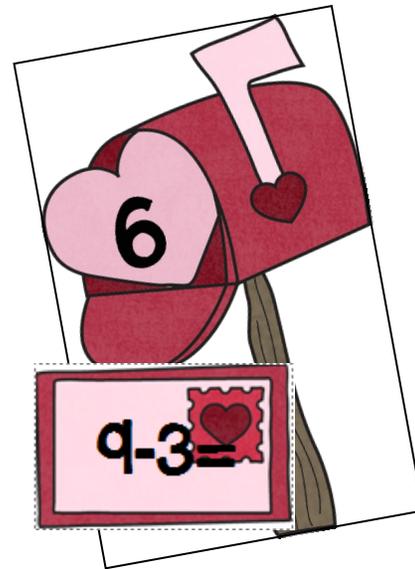

You've Got Mail

This activity is designed to provide students with extra practice subtracting numbers from 10.

To prep— print out the mailboxes onto cardstock. Cut apart postcard problem cards. Laminate all pieces and cut apart. Place at a center or station for student use. (You can cut apart mailboxes if desired.)

You do not have to use all the postcard pieces. Use only the ones you need or desire for your students.

I hope you enjoy this math centers.

I hope this saves you a ton of preparation time implementing fun and learning in your classroom.
